

CIEH Level 3 Health and Safety in the Workplace

A 3 year accredited qualification for supervisors, managers and anyone with responsibilities for health, safety and welfare at work.

The course provides a thorough understanding of health and safety, emphasising the importance of monitoring staff and controls. Relevant to all work sectors—manufacturing, retail, office, healthcare, catering and hospitality, local government, engineering and more.

Giving them the knowhow to manage safety in the workplace.

What's covered?

- Benefits of ensuring high standards of health and safety in the workplace
- Principles of risk assessment and health and safety management systems
- UK legal system for health and safety and enforcement practices
- How to identify and control common workplace hazards
- Promoting a positive health and safety culture
- Importance of consultation and communication on health and safety
- Keeping records relating to health and safety matters
- Monitoring the effectiveness of control measures
- Motivating safe behaviour and adhering to health and safety procedures
- The supervisor's role in ensuring compliance with the Health and Safety Management System
